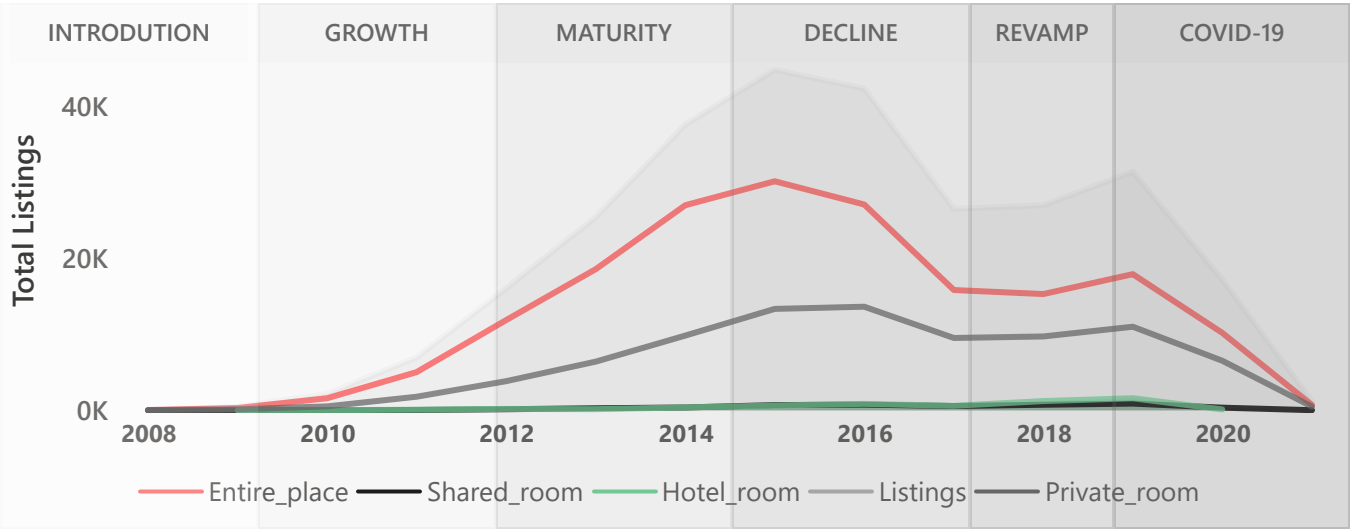
New Listings



In 2015, Airbnb reached the highest number of new listings. 2016 and 2017 saw a restraint also due to a tightening in local regulations. Despite this, Airbnb became profitable in the second half of 2016, and 2017 marked the first full year of generating income. From 2018, there was a new growth stopped in 2019 by the COVID-19 pandemic.

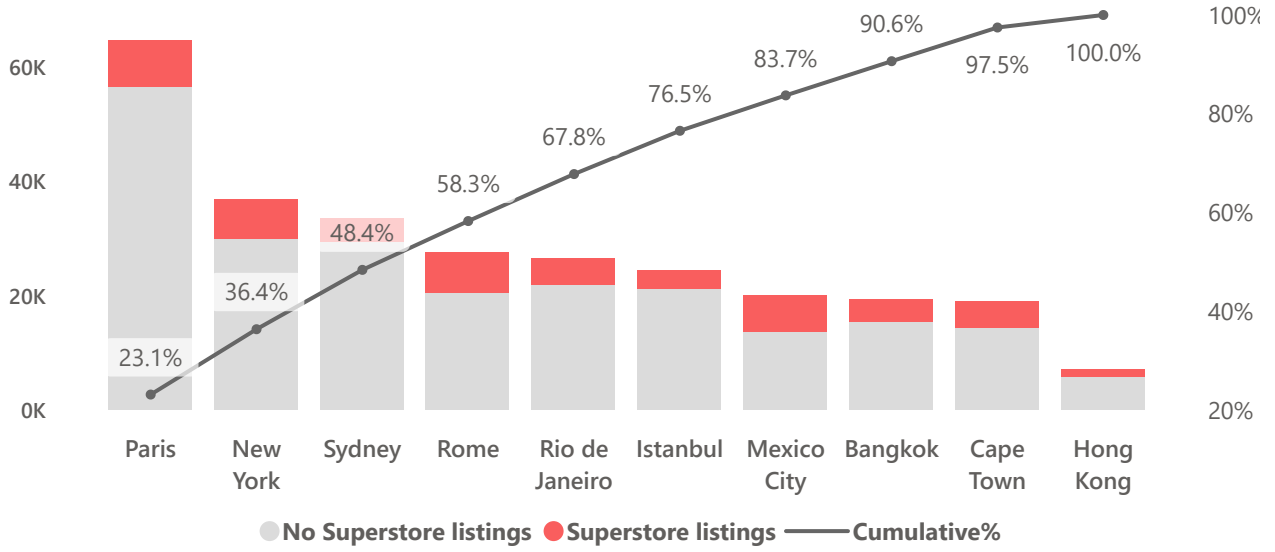
MARKET SHARE BY CITY



Paris, NYC, and Sydney together make up nearly half of all listings and contribute 48% of the total reviews.

Among them, Paris stands out with the highest number of listings and reviews. One possible reason is that hotel room prices there are nearly double compared to Airbnb options.

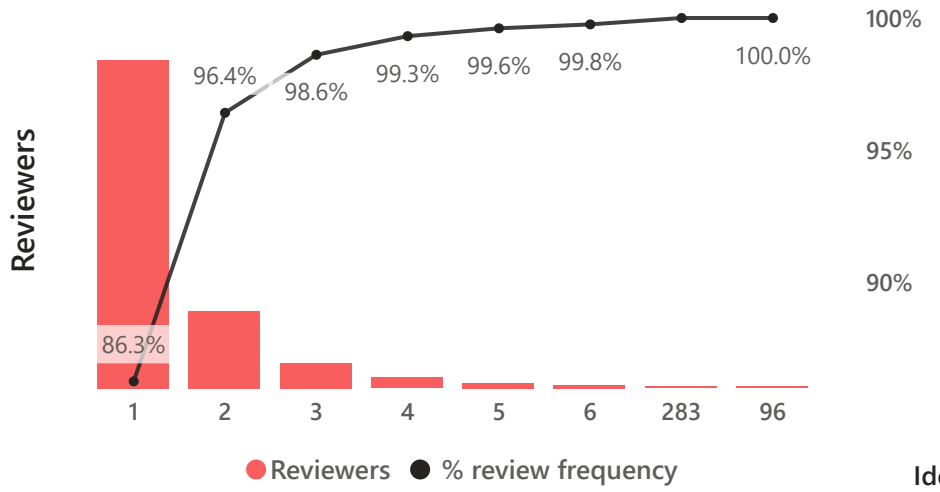
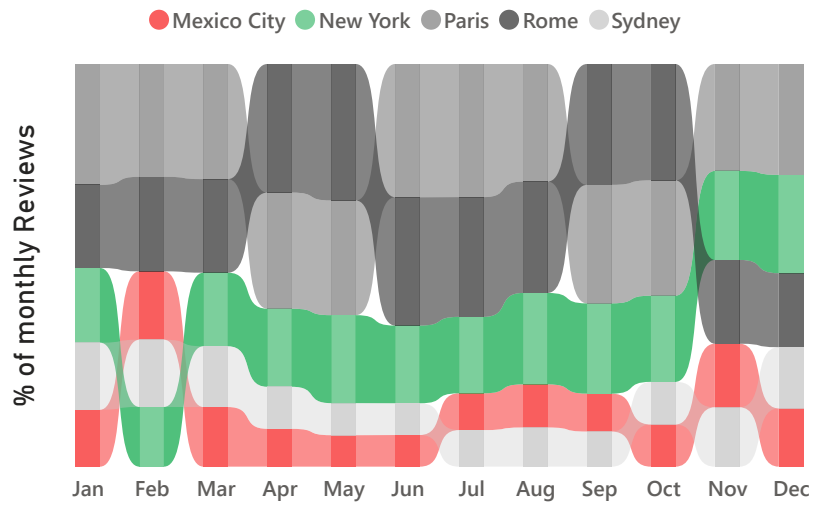
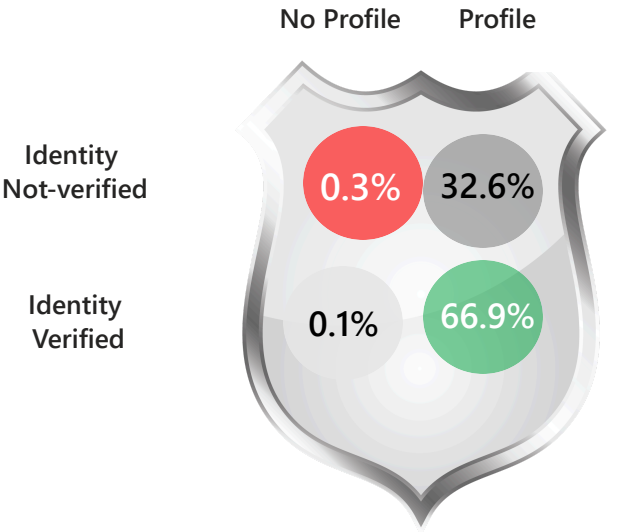
Review Frequency



Reviews provide information about customer order frequency. Most of the customers wrote review only once. 98.8% of customers did so three times or less. One customer wrote 283 reviews: last two on 13 Oct 2020, of two listings in Bangkok.



Trust



Over two-thirds of Airbnb hosts are fully verified, while nearly all hosts provide at least one trust signal, keeping unverified hosting to a minimum.

Paris and Rome dominate review share from April to August, reflecting peak European summer travel.
New York saw an increase in November and December during the holiday season.
